

May 2011

Ocean Tailors had done several jobs for me on my Nordhavn 43. Each and every one of them were well thought out, included quality workmanship and materials as well as superb and timely installation. I never would have believed that I would be so impressed with their products.

All of the work they did for me was custom and included flying bridge console and 2 pilot seat covers, a dinghy cover and a bimini top with articulated stainless support structures. They also outfitted my boat with blinds for the salon and internally mounted sun screen in the wheel house.

Everything they did for me was done at a reasonable cost. I am happy to recommend them to anyone who needs custom indoor or outdoor work.
