

Oct. 2012

I was lucky enough to get Hull001 of the \*Pease First Light series of skiffs, and had it completely spec'd with full Sunbrella coverage from Ocean Tailors: console cover, dodger and mooring cover. The pieces were thoughtfully designed, professionally fitted and stitched to perfection. Multiple fittings were performed, with an eye to quality rather than pumping it out the door. The frames, supports and even the snaps and tie-down performed flawlessly, survived many storms and heavy use. After 4 years, the dodger operated as it did on day of delivery. I would recommend Ocean Tailors strongly for those looking for custom canvas for the boat, home or auto use.

\*Pease Boat Works & Marine Railway design and build the Monomoy First Light Series boats in Chatham, MA. <http://www.peaseboatworks.com/firstlight26.html>
